RETURNING TO THE PROFESSION

Physiotherapy Practice Thresholds

The Physiotherapy Practice Thresholds, which were launched by the Physiotherapy Board of Australia and the Physiotherapy Board in May 2015, set out the entry-level requirements for initial and continuing registration as a physiotherapist in both Australia and New Zealand.

For further information on the practice thresholds, please refer to the Board's website:

<https://www.physioboard.org.nz/wp-content/uploads/2018/03/Physiotherapy-Board-Code-Standards-Thresholds.pdf>

This document should also be used for an applicant who has not practised the profession for three or more years immediately prior to their APC application (i.e. a return to practice applicant) to identify specific strengths and limitations to guide their professional development plan.

If you answered "NO" to question 4 on page 2 of this form, you are required to provide additional information to satisfy the Board that you are competent and fit to return to practising physiotherapy.

Curriculum Vitae

Please provide a CV that covers your entire work history. Remember to include any breaks in your practice and provide a brief reason for these breaks. This information is required so that the Board can ascertain your previous areas of practice and the length of time you have been away from the profession, and put your future plans into context.

The template below is included as a guide to what information the Board requires:

Position held / Job Title:			
Start date:		Finish date:	
Name & address of employer:			
Employment status:	Full time []	Part time []	
Area(s) of practice:			
Roles & Responsibilities			

Self-Reflection (Statement)

Reflective practice is an important part of being a health practitioner. It is important throughout the return to practice programme as it allows you to demonstrate insight into physiotherapy practice and learning needs. The template below is a guide as to what the Board requires:

Name:	
Registration Number:	70-
Date:	
Objective:	To understand your career plans relating to the practice of physiotherapy
In which area of physiotherapy do you intend to practise?	
Where do you intend to practise?	
Identify your future learning needs:	
How will you address these learning needs?	

Professional Development Plan

A Professional Development Plan (PDP) is an important part of the information required for an APC application. A PDP helps clarify your future development in the area of practice you want to go into; it sets out your goals and objectives for learning over a specific period and identifies activities you need to undertake and the resources required to complete them.

Please use the following template:

Goal/Objectives	Activities	Outcomes	Resources Required	Time Required	Date Achieved

Continuing Professional Development

The Board wants to see the Continuing Professional Development (CPD) activities you have completed in the last 3 years. Please include only those activities that demonstrate your competence to practise physiotherapy. Any relevant CPD activities you undertook more than 3 years ago may be included if they provide further evidence of your fitness to practise physiotherapy.

Further information on the Recertification Programme and requirements is available on the Board website:

<https://www.physioboard.org.nz/i-am-registered/recertification-audit>
